

Custom Lube & Fluid Carts

We combine our design and fabrication capabilities with our many years of fluid storage, handling and dispensing experience to design and build a cart specific to your requirements and application. We carry a diversity of pumps, reels, filtration, controls and dispensing equipment to satisfy the majority of industrial applications. Contact us with your application.

Low Profile Cart for a Beverage Company

Automotive Engine Assembly Plant

Walkies and Riders

Need more capacity on your lube cart with more equipment options – not a problem. Common industrial burden carries can be designed and equipped with all the components and accessories necessary to meet the requirements of your specific application.

Custom Lube & Fluid Carts

Carts that are custom designed and built to meet the specific demands of the application. Mobile carts make transfer of lubricants and fluids **cleaner, safer and more efficient** and should merit consideration for any fluid management program.

1 H.P., 120 VAC Transfer Cart

Combined oil transfer
cart filtration system

4 Product lube cart with
poly tanks, pneumatic
pumps, dispense hoses and
dispense valves.

Waste fluid cart with pneumatic
diaphragm pump, flow reversing
valve, metal tank with filter drain.

Custom Lube & Fluid Carts

Hydraulic system test cart. Filtered output and return circuits.

Engine coolant flush system for heavy machinery.

Lube Service Cart
Stores jugs and pails of lubricant for transfer to the plant machinery.
Incorporates a work bench surface, grease gun hanger and used filter storage.

Fluid transfer cart with pneumatic diaphragm pump, single pass filtration.

Custom Lube & Fluid Carts

Hand carry carts. Can be used to as a convenient means of transferring from drums. Units can also be carried to locations that a wheeled can not access. Units can be built with filtration and various hose assembly combinations.

Cart with custom cabinet, grease pump , 3 oil storage tanks , pneumatic piston pumps, oil hose reels and dispense valve, air connect hose reel.

Custom waste oil cart at Construction and Mining Equipment Dealer.
400 liter tank with filter drain, pneumatic diaphragm pump and flow reversing valve. Can transfer from shop waste oil sources into the onboard tank and can self evacuate using the same pump.
Onboard connect hoses and attachments.

Filtration and Transfer Carts

Transfer skid designed to transfer engine oils.
Includes 120 VAC 20 Amp volume transfer pump,
100 ft. power rewind hose reel, mechanical liter
meter with ticket printer, 35 ft. power cord reel,
2" x 10 ft. suction hose with camlock couplers.
Tests indicated 60 LPM, 15W40 engine oil @ 65° F

Some Equipment Options & Accessories

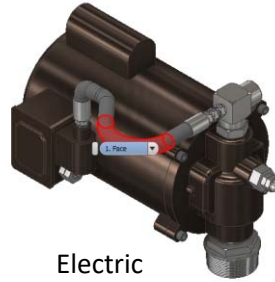

Manual Pumps

Pneumatic Piston Pumps

Pneumatic Diaphragm Pumps

Electric Pumps

Pumps

Comprehensive offering of pumps to satisfy most Industrial applications.

Pneumatic
Electric
Hydraulic

Flow Reversing Systems

- For filling of onboard tanks. No requirement for separate transfer pumps to fill the cart reservoirs.
- For transferring fluid in either direction. To evacuate from the machine reservoir to the cart reservoir/to transfer from cart reservoir to storage tank.

Cabinets

Cabinets for storing tools, small chemical containers, aerosols, activity record keeping logs, etc., etc. Standard or certified fire safe cabinets available.

Hose and Power Cord Reels

Comprehensive offering of hose and power cord reels

Meters & Dispense Valves

Dispense valves. Hand held or In-line meters. Several options available.
