

Series 30 Portable Lube Carts

Safe, Clean, Cost Effective
Getting essential lubricants and fluids to plant machinery and equipment is often a cumbersome and hazardous operation. Pro/Mark's portable lube carts provide a convenient and safe means of transferring these fluids.

Pro/Mark's modular tank design allows you to quickly reconfigure you carts to accommodate various day-to-day operations. Combined with a diversity of pump and accessory options, carts or individual tank packages can be equipped to suit specific applications.

Pro/Mark's carts have been designed and are industry proven to be easy to move and maneuver through congested plant operations.

Standard models and custom designed units are available.

Series 30 Lube Cart Chassis

Series 30 Lube Cart Chassis come in 3 lengths

40" Long - Part Number 3040

50" Long - Part Number 3050

60" Long - Part Number 3060

Tank Anchoring Channels
Provides secure mounting for tanks and equipment. Accommodates simple, quick installation and removal of tanks.

12" Fixed Wheels – Phenolic Construction
Durable, quiet, chemical resistant and easy to move.

Foot Brake with rubber pad
standard on all Series 30 Carts

Series 30 Lube Cart – Equipment Options

Manual Pumps

Pneumatic Piston Pumps

Pneumatic Diaphragm Pumps

Electric Pumps

Pumps

Comprehensive offering of pumps to satisfy most Industrial applications.

Pneumatic
Electric
Hydraulic

Flow Reversing Systems

- For filling of onboard tanks. No requirement for separate transfer pumps to fill the cart reservoirs.
- For transferring fluid in either direction. To evacuate from the machine reservoir to the cart reservoir/to transfer from cart reservoir to storage tank.

Cabinets

Cabinets for storing tools, small chemical containers, aerosols, activity record keeping logs, etc., etc. Standard or certified fire safe containers available.

Hose and Power Cord Reels

Comprehensive offering of hose and power cord reels

Meters & Dispense Valves

Dispense valves. Hand held or In-line meters. Several options available.

Custom Lube Carts

We combine our design and fabrication capabilities with our many years of fluid storage, handling and dispensing experience to design and build a cart specific to you requirements and application.

We carry a diversity of pumps, reels, filtration, controls and dispensing equipment to satisfy the majority of industrial applications. Contact us with your application.
